**Lafourche Telephone Company – Unfulfilled Service Requests (voice)**  
**Form 481 Lines 300-310**

Lafourche Telephone Company (“Company”) had one unfulfilled request for voice service in 2012. The Company needed to obtain private right-of-way necessary to provide service to the customer. Despite efforts, the Company was not able to obtain the right-of-way.

**Lafourche Telephone Company**

**Demonstration of Compliance with Applicable Service Quality Standards and**

**Consumer Protection Rules**

In establishing this certification in its *2005 ETC Order*,<sup>1</sup> the FCC found that an ETC must make “a specific commitment to objective measures to protect consumers.”<sup>2</sup> The Commission found that for wireless ETCs, compliance with CTIA’s Consumer Code for Wireless Service would satisfy this requirement and that the sufficiency of other commitments would be considered on a case-by-case basis. In this context, the FCC stated, “to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement.”<sup>3</sup>

Lafourche Telephone Company (“Company”) hereby certifies that it is complying with applicable service quality standards and consumer protection rules under state and federal law. These provisions include, but are not limited to, the following: 1) Customer Service Regulations for Telecommunications Service in LPSC Docket No. U-24856;<sup>3</sup> 2) “Slamming” requirements in Docket No. U-25754;<sup>4</sup> 3) Docket No. U-24050 containing rules and regulations concerning Telecommunications Service Provider billing;<sup>5</sup> 4) Truth-in-Billing Rules contained at 47 CFR §

## **Lafourche Telephone Company's Demonstration of Ability to Function in Emergency Situations**

Lafourche Telephone Company ("Company") hereby certifies that it is able to function in emergency situations as set forth in §54.202(a)(2).<sup>1</sup> The Company's network is designed to remain functional in emergency situations without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations as required by Section 54.202(a)(2). The Company can change call routing translations as needed to reroute traffic around damaged facilities. Changing call routing translations will also allow the Company to manage traffic spikes throughout its network, as emergency situations require.

Specifically, each central office building is supplied with standby generators and battery back-up that enable the central office to keep running until power is restored so long as fuel is available, or until system changes are made to reroute traffic. The Company has battery backup at all office locations and in its electronic equipment sites. Length of run time is determined by the equipment serving the area and the number of customers working out of the equipment. Generators are installed at all Central Office locations. They will continue to run as long as the Company has access to fuel.

---

<sup>1</sup> Section 54.202(a)(2) requires ETCs that are designated by the Commission to "demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations."
